**Failure to Acceptably Respond to  
Notice of Non-Compliant Amendment (37 CFR 1.121)  
No New Time Period for Reply is Provided**

The amendment document filed on 7/28/06 fails to provide the corrective action required by the prior Notice of Non-Compliant Amendment (37 CFR 1.121) mailed on 6/30/06. The amendment, including both the originally filed amendment and the amendment filed in response to the prior notice, is still considered to be non-compliant under 37 CFR 1.121. In order for the amendment document to be compliant, correction of the item(s) listed below is required. Only the corrected section of the non-compliant amendment document must be resubmitted (in its entirety), e.g., the entire "Amendments to the claims" section of applicant's amendment document must be re-submitted. 37 CFR 1.121(h).

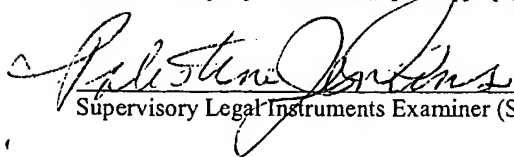

The period for reply continues to run from the mailing date of the prior Notice of Non-Compliant Amendment. The corrections listed below must be timely filed to avoid abandonment of the application. No new time period for reply is provided in this communication. See the Manual of Patent Examining Procedure (MPEP) § 714.03.

If the period for reply set forth in the prior Notice of Non-Compliant Amendment has expired, this application will become abandoned unless applicant: (1) corrects the deficiency, and (2) obtains an extension of time under 37 CFR 1.136(a). In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in the prior Notice of Non-Compliant Amendment (37 CFR 1.121).

**Attachment: Failure to Acceptably Respond to Notice of NON-COMPLIANT AMENDMENT (37 CFR 1.121)**

Only the corrected sections of the non-compliant amendment document must be resubmitted (in its entirety). In this case, the entire "Amendment to the specification" section of applicants' amendment document filed on Jul. 28, 2006, must be resubmitted. 37 CFR 1.121(h).

Applicants' "Amendment to the specification" section filed on Jul. 28, 2006, did not address any of the non-compliant issues raised in the last Notice of non-compliant amendment mailed on Jun. 30, 2006. See the Notice of non-compliant amendment mailed on Jun. 30, 2006, Item C, pages 2-3. The non-compliant issues raised in the Notice of non-compliant amendment mailed on Jun. 30, 2006, are repeated below.

(1) The second amended paragraph at page 2 in the "Amendment the specification" section, is incorrectly identified as replacing "paragraph 2 on page 4" of the specification. The paragraph should have been identified as the paragraph replacing the paragraph beginning at page 23, line 13, of the specification.

37 CFR 1.121(b)(1) states that "[a]mendments to the specification . . . which are considered for amendment purposes to an amendment of a paragraph, must be made by submitting: (i) An instruction, which unambiguously identifies the location, to

Art Unit: 1756

. . . replace a paragraph with one or more replacement paragraphs" (emphasis added).

(2) The amended paragraph replacing "paragraph 1 on page 10" of the specification, merely adds the term "silsesquioxane" at line 3 of the paragraph without using the proper markings to indicate its addition.

The amended paragraph replacing "paragraph 1 on page 11" of the specification, merely deletes the phrase "comprising the silsesquioxanes" from the previously filed paragraph without the proper markings to indicate its deletion.

Applicants have improperly amended the paragraphs.

37 CFR 1.121(b)(1)(ii) states that "[t]he full text of any replacement paragraph with markings to show all the changes relative to the previous version of the paragraph. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters . . ." (emphasis added).
